PLERCE AGAINST IMPROVEMENTS: One John Reynolds certifies in the News of

Monday, that Mesers Pierce and Kino, the can-didates of the "Democratic" party, are true friends to the interests of the West, and the News backs up, this assertion as follows:

Gay, Reynolds confirms the position we have taken in regard to Gen Pierce's views upon the question of fiver and Harbor Improvements—that he was always in favora of such appropriations by the general government for that purpose as are writin the power of the Constitution—such, for instance, as the estimates of the properly authorized departments at Washington recommended—that he opposed only such appropriation bills as contemplated a system of improvements for out of the way rivers and harbors, merely intended to emich private speculators, or establish an election of the purposes.

Let us muscal to the record. Let Messrs, Pirror up this assertion as follows :--

Let us append to the record. Let Messrs. Pience and files be tried by their own deliberate acts, and not by the interested and irresponsible professions of their friends. On the 28th of June, 1836, Mr. Pirrer, being then a member of Con-Strong recorded his vote against a bill making appropriations for the improvement of certain Rivers and Harbors. Among the items in this bill we

natice them: For St. Joseph River Pier - \$20,000 Survey of Milwaukee River - \$406 Upon the pressage of this bill Franklin Pierce voted No. It nevertheless passed both branches of Congress and was approved and signed by Gen

If set, why did Astonew Jacobs sign it? If not, why did Frankiis Pinece oppose it? But to the record again. At the second session

of the same Congress, a bill was passed making appropriations for building light-houses. This, too was approved Gen. JACKSON, and apposed by Gen. Princip He voted against the Light House, as be did against the Bathor Bill. This bill appropriated manny other items for Light-houses, the folsewing for this State :

Will the Aces tell us whether this bill was likewise " unconstitutional " and " corrupt "; and if not, on what ground Mr. Pierce's adverse vote

can be defended or excused? Once more to the RECORD! At the same sets-Low of Congress (1837) Mr. Pience again demonrirated his "fidelity to Western Interests" by voting against a bill " to provide for certain harpore and for the removal of obstructions in and at the months of certain rivers." THE GAME OF PRAUD. - The Morning News of vertenday follows in the footsteps of the Folks. freund, and charges us, whon editing the Albany Daily Advertiser, with having advocated the "totalexclusion" of men of foreign birth from the rights and privileges of American citizenship.— To make it more conspicuous, the News displays the fiction in capitals. The charge, as we stated in our last i-sue, is a wholesale and wordon fabrica-We never held, nor expressed any such illiberal sentiment. From first to last, we have always been in favor of extending equal rights and paivileges to all citizens of the Republic, whether mative or foreign born. Our vote, as a member of the Convention which framed the Constitution of this State, is on record in flavor of the clause, seenring to Naturalized Citizens, or those who have darked their intentious to become such, the Right of Suffrage. Let our adopted citizens judge of the honesty and reliability of partisan organs, which, in the hope of arousing their prejudices, and thus diverting attention from the real issues of the campaign, do not hesitate to invent and impute to the friends of Winfixla Scorr sentiments which they never entertained and language which thay never used! That the charge that Gen. Fince and the demo-cratic party are responsible for the editors test in the New Hangshire Constitution, excluding Catholies from holding certain affices, is fulse; That it requires a two third role to after the Constitution of that State; That the democratic party there have never been in a two-thirds analority; That if the ruling party is responsible for the test, the Whigs and Abolitionists, who were in power in 18-16, and again in 1851, are to blame for not abolishing it.—Morning Mens. Let it be Remembered

The Noes, but a short while ago, strongly de-

The rate, presented this "Catholic test" discussion. Now, however, it seems inclined to revive it. We shall not balk its humor. Let it be remembered then, that the Democratic Party is responsible, directly and undeniably, for this illiberal and anti-Republican exclusion of Catholics from public office in New Hampshire. Let it be remembered that the Democratic Party have always (with the exception of two years) hold undisputed sway in New Hampshire and could make and unmake their Constitution to soit themselves. Let it be remembered that when the question of retaining or repealing this Religious Test was submitted to the People of New Hampshire they voted, Two TO ONE, in favor of excluding the Calholies from ofnice. Let it be remembered that at this very election, the Democratic ticket received a majority of nearly two to one over the Whig candidates. Let it be remembered that the heaviest majorities in favor of the Test were given by Democratic towns, and the largest majorities against the Testwere given in Whig towns. Let it be remembered that Concord, the home of Mr. Pierce, the

giving a large Democratic majority, also gave five undred majority for the Test. Let it be remembered that if, as the News insists, the "Whigs and Abolitionists," who were in a majority in '46 and '51, " are to blame for not abolishing" the Test, then the Democratic Party, who were in the majority all the rest of the time, have an infinitely heavier responsibility resttone, nave an immery hear ter responsibility for ing upon their shoulders, for not using their power to relieve the Oatholies from this unjust and invidious disqualification. And finally, let it be remembered that Frank Pience is commended to the suffrages of the American People, as the type and embodiment of New Hampshire "Democracy"-the most bigoted, intolerant, anti-progressive democracy in the land-who exclude Catholics

from office; bar out Rail Roads as dangerous onovations; and look upon River and Herbon Bills as flat violations of the Constitution! Is this the sort of "Democracy" which should receive the support and countenance of the tolerant, enlightened, "go-ahead" People of the West?

The New Hampshire Test.

The Baraboo Standard must have a singular idea of the credulity of its readers. We judge not on the creamy of its reasers. We judge so from the perusal of a column and a half devoted to the New Hampshire Religious Test question. In that article the assertion is boldly made that Mr. Pierce twice succeeded, against the strenuous opposition of the whigs, in getting a Constitution submitted to the people, "stripped of that odioos feature," and that-here is the gist of the article-

feature." and that—here is the gist of the article—
"It met the bitter opposition of almost the entire while party, which, in conjunction with a portion of the free soil party, and a few bigored denocorate, both times rejected it."
Still further on, the Standard says that "unfortunately for them (the Catholics) Mr. Pierce had not sufficient influence to enable him to overcome | Convention of the Scott men of New York, New the old prejudices, wrongly entertained by nearly all the whige, as well as some of the democrats in that State.

Now the facts relative to this matter have bee so long before the public, and so widely published that we have a right to presume that the Standard is aware of the real state of the case. The facts and figures show that New Hampshire has always been a strong "democratic" state—and that while the anjority of the strong democratic towns, including Concord, Mr. Pierce's residence) gave iency imporities against the abolition of the test,

he whig towns gave majorities in favor. Under these circumstances, we think the Standand must have been wandering in mind when it used the language above quoted, while it must have been enjoying an hour of self-examination while getting up the latter part of the article from which we take the following:

from which we take the following.—

How despisable is such a course, the exciting
of religious prejudices! How far beneath the
character of a patriot and a republican! How much it savors of the very lowest political dema-

gogueism! How much like sacrificing principle of virtue to the spoils of office! More "Repudiation."-The Watertown Reg ister, not having the fear of the Morning News before its face, thus deliberately tramples upon and repudiates the "Finality" plank of the Dem-

ocratic platform: "The Compromise measures, so called, Whig measures, got up by Whigs, and sustained by Whigs, and as such they must father them at the coming election. The Watertown Register complains that the Sentinel charged it with "having called Gen Scorr a coward." The Sentinel has done nothing of the sort. We do charge the Register, how ever with publishing and persisting in the false statement that Horace Greeney said:

"Scott is a vain conceited coxcomb of a man His brains—all that he has—are in his epauletes." Mr. GREELEY has again and again stamped this s a base forgery. Nevertheless, the Loco Foro organs, never weary of ill-doing continue to cir-culate the paragraph as geneine, and invent a Whig endorser for their own detainatory attacks upon Winfiguo Scott. Shall these Guerilla tactics prevail?

" Boist with their own Petard."-The Local Foco papers, filing off under lead of the Boston Post, are making themselves ridiculous over an meration of the personal pronouns in Gen. Scorr's letter accepting the nomination, charging old Chapultepec with egotism therefor.
These same papers consider Mr. Pinace's an-

awar a model of composition, evincing remarkable modesty; while it is only about half as long as that of Gen. Scorr's, and contains nearly twice sa many of the obnoxious pronouns;

SHAME!-While Messrs. Pierce and King, and hose who were with them then and support hem now, have been in Congress and at Baltimore, talking to death, voting against, and resoling against, all justice to Northwestern comname, the Canadian Government is going on to survey and build a Canal around the Sault St, Marie. They have had so many proofs of the opposition of the "democracy" to this and other mprovements, that they consider themselves safe n their project to levy a toll upon every pound of American copper that comes down from Lake Superior. Elect Pierce, and they are safe!

A GOOD MOVE-The Boston and Worcester R. R. Co. are moving their deput 75 feet to the east of its position to make room for greater accounmodation. It is a nice little operation-the building being built of brick, 175 feet in length and two stories high. They have it on wheels and are going along with it at the rate of 8 or 10 feet a day. Only eleven men are employed at the screws. It is quite a yankee notion. We are up to moving buildings here, too, and every few days a dwelling, store, or church is seen scudding through the streets at a 2:40 pace, " to the imminent dan ger of life and limb." Our neighbors of the Barner will find in yes aday's Morning News, a communication on the subject of Sabbath-breaking, which we take leave to commend to their respectful consideration. As it is signed, and no doubt written, by "a Demoerat," and appears in the exclusive "Democratic" organ of our city, there can be no doubt about its speedy travelling, even in the back woods, to repolitical orthodoxy. The Lanner, therefore, can-not set up, as a sufficient answer to this commusication, as it did to those which appeared in the Sentinel, that it was the offspring of "bigotry," Sentate, that I was the observed whiggery? de-It must acknowledge and receive the rebuke as coming from those of its own political faith and

An Example to be Emulated.

Gen. Scorr, as a Whig, has always presented an example which others of our party leaders would do well to imitate. Firmly believing in the efficacy of the general doctrices and principles of the Whig party to secure for us the obestings of prosperity and good government, he has never for a moment hestated in giving his unequived support to its candidate. On this point we may quote the following letter, which he wrote in reply to one from Senator Truman Smith, of Connection, who enquired whether he would support Gen. I have the evening learned that Mr. Lawrence has laid informal correspondence with the President on the subject; that his official resignation is now on the way to this country; that Mr. Webster has been offered the place, and that he will give an answer, probably an acceptance, in a few days, and not return to Washington at all hereafter.

Sixuar Celebrations,—In Milwaukes and Watertown the 4th was celebrated on Sunday by a portion of the German population. At the latter place, thirty-two guns were fired in the morning, the procession moved to the place of public celebration at two o'clock in the afternoon, where the meand accreases were had, and a dinner served. The day closed with music at the Buena Vista House. From 809 to 1000 were present. A remonstrance against this descention of the Sabbath was numerously signed by the citizens of the village, and a committee endeavored to dissuado the participants from their purpose. But all such efforts were useless. These are the first exhibitions of the kind in this state, and we hope may be the last. Let the views of the Germans be what they may as to the character of the Sabbath, the sentiment of the American people is averse to such a use of it, and a proper respect to inwaind usages existing among us should induce adopted citizens to defer, in a matter of the kind, to the feelings of those around them. In the present instances, there was no possible excuse for so wanton a diaregard of the religious sentiment of the community. A general celebration was arranged for the succeeding day, at which the utmost excess of particitism would mave found opportunity for indulgence, and to which all have been cordially welcomed, whatever their faith or nativity. Moreover, as an anniversary day, the 4th of July is peculiarly a merican, connected with, no memorable event in the history of any other nation, never observed elsewhere than here, and presenting no claim to the gratitude of the people of any other ceparity than what they find in ours.

Under these circumstance, we cannot but regard a persistence in celabrating on the Sabbath no indicating something beside, a devoted love for American liberty or respect to the memories of those who achieved it—Janesville Gazette.

THE SOCIETY ISLANDS.—Queen Pomare is having a rough time of it with hersubjects. By way of the Sandwich Islands we have intelligence of a recent conflict at Riatea between the Republicans and the Hovelitts. The half breed native who also the state for the foregar an President con ferroments. and the Rovaliste The half, breed native who was elected by the former as President pro term, was overpowered and bened to fise with his troops helone the sudden assaults of the Royaliste. The Republicans, however, talked, received strong reinforcements, and marched against Queen Pomane's troops, repulsing them with considerable hoss of life on both aides, and reinstating their President. Queen Pomane, henring of the defeat of her troops, hardrand in person to Rintes, to turn the tide of war. She was assailed with great furry, and barely scaped with her life, by taking refuge on board a French Frigate. One report attains that the Queen had gone to the Saudwich Islands. Another and later states she had quelled the political disturbances and returned to Tahiti at the French Frigate Thisbe.

SPLENDID WILLIA — Win. M. Dennis, Esq., has handed us a specimen of his present crop of wheat the seed of which he imported from Rochester lest fall. It is certainly a splendid article. It is a large well filled berry, and will prove a great acquisition to our agricultural friends. It is the White Chaff Bald Wheat. Mr. Dennis has a field of ten acres, which he intends to dispose of for seed. We recommend our farming friends to secture a portion of this grain of Mr. Dennis, as we are satisfied that its introduction will be worth thomands of dollars to the State. This and the Soule wheat should be generally sown, in preference to continuing the old varieties.— Watertown Register.

Speech of Hon. Andrew Stewart.

At a large and enthusiastic Whig ratification meeting held at Uniontown, Pennsylvania, on the 25th ultimo, the Hox. Andrew Stewart laving been called upon to address the assemblage, made a few remarks, which we find reported in the Democrat, in the course of which, referring to the Whig and Democratic candidates for the President A. 2011.

Democral, in the course of which, referring to the Whig and Democratic candidates of the Prosidency, he said:

"He knew both candidates well. In his opinion the Whige and the strongest candidate, and the Democrate he weakest they ever had. Mr. Pierre was an excellent and amiable little many too amiable for the grant. office to which he aspite the property had been a stored in the provided surround litin. Scott had filled many offices of the highest responsibility, civil and military: he had never falled in any—he was always successful; and success, after al. was the beet two feeding.) He knew thin infinisely: and, in its opinion, a better, a braver, a more patriotic heart of other puritual the boson of rane. (Immeration of the tricks of the trade, and was too honest to practice them if he did.

"The Whigs have had many glorious candidates, but Scott was the "noblest Roman of them, all." He was no crafty politician—he was battles than any of them: he lad done what nother candidate for the Prasidency, Whig or Democrat, bad ever done, not excepting the immortal washington limself—he has scoled his victorial washington limself—he has scoled his victorial washington limself—he has scaled his victorial washington limself—he has scale

of the thousands of Irishmen he had commanded, he "never knew one to turn his back on his friends or his enemies;" and no true frishman would ever turn his back or Gen. Scott."

Out of their Own Months!

The Louisville Democrat is now among the violent opponents of Gen. Scott; but the Journal quotes very aptly from its columns of a former date. On the 27th of May, 1847, it said:

date. On the 27th of May, 1847, it said:

"The history of Cerro Gordo was contained in Gen. Scott's order, before its commencement.—
He pointed out the time and place for the action of each division of the army with the same coolness and precision that he would have employed in writing the programme of a civil procession.—
In conclusion, he adds the important information that the army would proceed on, and not return to the camp. It was to be only a day's march up a hill. There were some incidents not in the order; Scott did not say that two captains should eat up. Santa. Anna's dinner, and drink up his wine."

order; scott the not say that two capanits south eat up Santa Anna's dimer, and drink up his wine."

On the 25th of October, 1847, long after the battle of Molino del Rey, and all the other battles in Mexico, The Democrat said:

"Gen. Scott has earned for himself a name and fame which will throw even envy into the shade. The man who can lead an army of a few thousands through the heart of an enemy's country—through towns and cities containing hundreds of thousands—who can overcome obstacles of nature and art, of the most formidable character—who can, with his little band, by his military skill and combinations, move through a forest of fortifications, defended by the troops of a nation chosen to defend their capital, in a city of two hundred thousand inhabitants, may well claim the laurels of the first general of the age. Nor will it demat from his merits, that his skill in planning was aided by the best of counsellors, and his energy in execution by the most heroic officers and soldiers. To lead such an army is a high honor; but to be able to develope the vast resources of skill and valor which such an army contains, in the acomplishment of such univalled results, is glory enough to gratify the loftiest military ambition. In the achievements of our arms, the commanding general, as he has the chief responsibility, may claim the chief honor."

This is alke truthful and beautiful. What new evidence can the editor of the Democrat have received to induce a change in his opinious? Or, if he has not changed them, how can he oppose such a man, and that, too, by concurring in, and eirculating the slanders that are daily multiplied against him?—Washington Telegraph.

A Thrilling Anecdore.

The following anecdote was related to a writer in the Jerseyman, in a farm house in Virginia, during a night spent there several years ago:—

With a

towards its youthful preserver, and smiled, as it seemed, in gratitude for its preservation. With a countenance filled with hope, the gallant youth cheered the sufferer on, biuself bearing within his tiny arms, the infant child, while the mother leaned for support on the shoulder of her little conductor. "My home is hard by," he would exclaim, so oft as her spirit failed; and thus for three miles did be cheer onward to a happy haven the mother and child, both of whom, otherwise, must have perished, had it not been for the humane feelings and perseverence of this noble youth. A warm live, and a kind sttention, soon relieved the sufferer, who, it appears, was in search of her husband, an emigrant from Now Hampshire, a recent purchaser of a farm in the neighborhood of —, near this place. Dilgent inquiry for several days found him, and in months after, the identical house in which we are sitting, was creeted, and received the happy family. The child grew up to manhood—entered the army—lotted in the army—lotted in the army—lotted to end his days, a solace to the declining years of his parents."

"Where are they now?" I asked the nurrator.

"Where are they now?" I asked the narrator "Here!" exclaimed the son. "I am the rescue "Here!" exclaimed the son. "I am the rescue-one; there is my mother; and here, on my nash-arm, is the name of the noble youth, our preserv-er." I looked and rend "WINFIELD SCOTT".

We would respectfully call the attention of our many friends, and the public generally, to an in-strument we have recently imported from Paris, from which the above cut was taken. Ry it we can take the exact shape, and unoringly fit the most irregular heates. Many can testify to the interpolar heates and aunoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingomious contrivance, this very great aunoyance is done away; as the Huts are made to itt perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the investions of this curious instrument.

Having adopted the Casic System (which all will readily acknowledge to be the best,) we are enabled to sell the best Sik Hat made, at the extreme low price of \$425 : surpassing any \$5 Hais sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customer, we do so, with the confident sesurance, they are all we recommend them to be, we invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.
